Dear Practitioner,

We truly enjoy our association with likeminded practitioners like you who are focused on providing real solutions for health. Total Body Detox® is the most important product and

information package we have ever compiled; providing two revolutionary products as well as new insight that we believe will revolutionize and enhance your practice, your causal perception

of disease, and enlighten you towards more effective treatment and prevention.

In the next few pages we define Total Body Burden (TBB). Learn why the presence of heavy metals in the body at birth promotes immunodeficiency and how the ensuing pathogen burden causes inflammation of tissue, which then impedes the elimination of heavy metals. The presence and accumulation of heavy metals then catalyzes the free radical chain propagation effect producing countless free radicals ravaging the body at the cellular level resulting in a state of

oxidative stress. Oxidative stress leads to molecular damage and tissue injury.

Babies are now born with very high levels of more than 50 measurable toxins including heavy metals, which the mother's body disposes of during pregnancy into the rapidly growing fetus. With our increasing toxic burden already present at birth, the immune system is compromised. We are born into a world of pathogens, which then begin to thrive inside our immune compromised bodies. The presence of pathogens in tissue then leads to low levels of inflammation, which clearly contributes to all degenerative diseases that we face today. This includes everything from Alzheimer's to autism, arthritis and aging, to cancer, heart disease and even obesity.

Pathogens and Toxins have been proven to contribute more towards degenerative disease, infection and illness in general than all other health effecting factors combined. Hence, to achieve total body health, you must eliminate the total body burden of both pathogens and chemical toxins. You must achieve Total Body Detoxification. We realize however that although simple to understand, to facilitate the removal of both pathogens and toxins from the body safely and effectively was until now extremely difficult and nearly impossible.

Total Body Burden defines the catalytic and devastating inter-relationships between pathogens and toxins, the destructive sum of the whole. To reduce TBB, both pathogens and toxins must be eliminated in unison by an effective, multifactorial lifetime approach providing treatment and prevention.

Hence, to effectively eliminate heavy metals, you must first provide the mechanism to eliminate pathogens and reduce inflammation. To eliminate pathogens, you must also provide the mechanism to eliminate heavy metals and restore the body's own immunity.

What if you could confidently prescribe a two product protocol and provide any patient with the effective tools to eliminate both pathogen and toxin load from minor to severely acute? Unlike any two products you have ever prescribed, ACS 200® and ACZ nano® together provide synergistic and comprehensive therapeutics towards Total Body Detoxification.

Read on to discover how you can arm your patients and your practice. Total Body Detox® will provide high benefit to your patients while providing increased and consistent revenue to your bottom line.

The Health Crisis - In October, 2006 National Geographic magazine published an article entitled "Chemicals Within Us". This article provides a startling, in depth portrait of just how toxic our bodies have become as a result of modern day pollution. Heavy metals like lead and mercury as well as a myriad of chemical toxins embedded in tissue and bone do untold amounts of physiological damage leading to degenerative disease and premature aging. By definition toxins are substances that cause a reduction of viability or functionality in living things.

In a study led by Mount Sinai School of Medicine in New York, researchers found an average of 91 industrial compounds, pollutants and chemicals in the blood and urine of volunteers. None of the participants in the study worked with chemicals or lived adjacent to an industrial facility. Of the 167 chemicals found, 76 cause cancers in humans or animals, 94 are toxic to the brain and nervous system, and 79 cause birth defects or abnormal development.

The federal Centers for Disease Control and Prevention projected that 1.7 million patients nationwide would get an infection during a hospital stay this year, and that of those, 99,000 (about 270 per day) would die. The centers estimate the cost of treating such infections at more than \$30 billion a year. Infection rates worldwide are soaring as pathogens of all types and kinds are becoming more pervasive and deadlier than ever.

Industrial chemicals, dangerous metals and pollutants, fungus, virus, and bacteria are here to stay and getting worse. Combine current levels of toxicity with modern infections and you have a worldwide health crisis.

Are You Toxic? Cleansing your body of damaging toxins and pathogens is one of the most important steps you can take towards improving your current health and future well being. A simple two part solution, **ACS 200®** and **ACZ nano®** provide Total Body Detox®. When used together, these 2 new and very exciting formulas facilitate the effective elimination of both pathogens (fungus, virus and bacterial etc.) and toxins (heavy metals, chemicals and neuro toxins etc.) from the body safely, efficiently and rapidly. The synergistic effect of these 2 formulas is truly unique. Unlike the questionable benefit of many nutritional supplements, scientifically ad-

vanced **ACZ nano®** and **ACS 200®** provide real health and real benefit in a proven, powerful way with just a few sprays per day.

Total Body Detox® is a daily requirement. Although significant and noticeable benefit can be achieved in just one month's use, Total Body Detox® should be taken daily to maintain immunity and whole body cleanse.

Total Body Detox® made simple.

- **TBD Kit I includes: ACZ nano® 2 oz and ACS 200® 2 oz**
- **TBD Kit II includes: ACZ nano® 2 oz and ACS 200® 4 oz (for higher pathogen)**

ACS₂₀₀[®]

Advanced Cellular Silver

Pathogen Cleanse

"We need to lower total pathogen burden and strengthen our patient's immunity to provide meaningful long-term benefits.

Advanced Cellular Silver – ACS₂₀₀[®] is the most effective treatment I have discovered and the only medical silver I personally endorse in dealing with chronic infections and associated immunodeficiency."

The leading formula: There are a multitude of 'silver' products on the market today but how many are truly safe and truly effective? ACS₂₀₀[®] represents a major advancement in medical use silver technology and excels in both categories.

Proven independently in FDA approved laboratories, ACS₂₀₀[®] is an extremely powerful, yet safe formula which can be taken daily to provide a significant boost to overall immunity. ACS₂₀₀[®] can also be prescribed in higher dosages to engage serious immune challenges.

Safety studies: And just how safe is ACS₂₀₀[®]? An FDA protocol oral-toxicity (LD 50) study was conducted by Pacific

BioLabs in Hercules, CA. Using mega doses of ACS₂₀₀[®] there were no toxic signs observed throughout the study. Results like this are unheard of when testing traditional antibiotics.

Considering the power this formula provides in eliminating pathogens, the safety factor is truly remarkable.

Actions/Properties	Active
Proven in Vitro to: Eliminate Any Pathogen: Viral, Bacterial or Fungal	✓
Kills Staphylococcus aureus (99.9996%) in 15 Seconds!	✓
All Quoted Studies are Independently Derived	✓
Strengthens the Immune System	✓
Passes Naturally out of the Body	✓
100% Natural	✓
Not MLM	✓

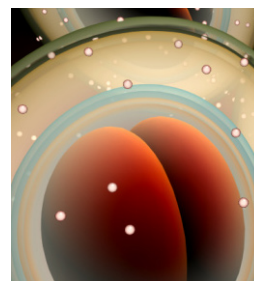

Pathogen kill: Independent Kill Time studies have been performed at the microbiological laboratories of Brigham Young University to determine the bactericidal activity of ACS₂₀₀[®]. Studies show that ACS₂₀₀[®] achieves a 99.9996% kill against Staphylococcus aureus in 15 seconds! There is not another silver based supplement on the market that provides these results.

How Does ACS₂₀₀[®] Work? Many forms of bacteria, virus and fungus utilize a specific enzyme for their metabolism. ACS₂₀₀[®] effectively disables the enzyme that is necessary for these organisms to stay alive. ACS₂₀₀[®] is lethal to all species tested of fungi, bacteria, protozoa and virus. **Significantly reduce your pathogen burden safely and effectively. Take your ACS₂₀₀[®] daily and feel the difference!**

ACS₂₀₀[®] Kills MRSA!

As you know, Methicillin-Resistant Staphylococcus Aureus (MRSA) is becoming a widespread epidemic. Ever increasing numbers of MRSA patients are presenting themselves who respond minimally to antibiotics (both oral and IV).

Like all superbugs, MRSA is the result of decades of excessive and unnecessary antibiotic use. For many years, antibiotics have been wrongly prescribed for colds, flu and other viral infections that don't respond to antibiotics, as well as for simple bacterial infections that would normally clear on their own. Even when antibiotics are used appropriately, they contribute to the rise of drug-resistant bacteria because antibiotics simply do not destroy every germ they target. Bacteria evolve quickly, so those that survive treatment with one antibiotic rapidly mutate in order to resist others. Some bacteria like MRSA have become resistant to almost every prescription drug available.

Many practitioners have commented that standard CDC protocols are now ineffective against MRSA. If you have not already, you will most likely be presented with an MRSA patient soon. What protocol will you use for the treatment of this virulent staph infection? When exposed to MRSA, what product will you use to prevent your own infection?

Studies show that ACS₂₀₀[®] achieves significant kill against MRSA in less than one minute. This impressive kill time data demonstrates once again the unmatched pathogen killing power of ACS₂₀₀[®]. As ongoing research studies prove, the unparalleled safety and efficacy of ACS₂₀₀[®] make this Silver-based antimicrobial truly unique. Covered by a growing list of over ten patents, there is not another silver product on the market today that compares in performance to Advanced Cellular Silver (ACS) 200[®]. This in-vitro suspension test was performed per EPA approved testing protocol at the Brigham Young University Bio-Safety Level 2 laboratory on Friday, November 16, 2007 under the direction of Dr. Richard Robison.

Safety and Efficacy: When choosing an antimicrobial product, safety and efficacy are the only two factors that truly matter. ACS₂₀₀[®] provides 200 parts per million of uniquely energized silver molecules that range in size from 0.4 microns down to nanometer, which are suspended in wetter water[®]; a proprietary micronutrient transport medium that is 43% lower in surface tension, enabling a more rapid penetration through all physiological systems. If you have enjoyed any amount of success with another Silver-based product, you will love the patient success you can achieve using ACS₂₀₀[®]. After all, patient success is your success.

No single pathogen protocol will affect your family and patients health in a more positive way in both treatment and prophylaxis that can be achieved using ACS₂₀₀[®].

ACZ Nano[®]

Advanced Cellular Zeolite

Part II: Toxin Cleanse

What is Zeolite? Zeolite is a naturally occurring crystal formed from volcanic ash over 300 million years ago. This crystalline compound has a cage-like, honeycomb structure, which is negatively charged and therefore attracts and captures harmful substances.

What is Toxin Load? For our purposes, toxin load means heavy metals – Aluminum, Lead, Mercury, Tin, Antimony, Cadmium, Bismuth, and Arsenic to name a few, as well as pesticides, chemicals, petroleum by-products, and even more yet to be quantified but extremely toxic particulates. These damaging toxins have become increasingly invasive in the air we breathe, the water we drink and the food we eat. Hence, the daily removal of these toxins from the body

is crucial to maintaining overall health and longevity. You wouldn't leave a pile of festering garbage in your bedroom. The same rule applies to the human body; toxins that are taken in must be taken out.

Actions/Properties	Active
Removes Heavy Metals and Free Radicals	✓
Highest Cation Exchange of All Zeolite Products	✓
Contains Sub Micronized Zeolite, Proprietary Nutrients and Energy	✓
Balances pH levels	✓
Supports Healthy Immune System	✓
Passes Naturally Out of the Body	✓
100% Natural	✓
Not MLM	✓

Significant medical testing in the last several decades shows that Zeolite has the perfect molecular structure for trapping and removing damaging toxins from the body. ACZ nano[®] provides sub micronized clinoptilolite zeolite and proprietary nutrients in nano

distilled, energetically enhanced water. ACZ nano[®] is also the only zeolite based formula provided in a convenient intra-oral spray.

Is Zeolite Safe? Zeolite is 100% natural and of course, non toxic. Zeolite is classified by the FDA as GRAS – Generally Regarded as Safe.

The more toxic metals residing in the body, the higher the free radical activity. Heavy metals in the body exponentially increases free radical activity and today everyone has far more heavy metals than ever. Thus, removing toxic metals from the body will greatly reduce the number and activity of free radicals.

Will ACZ nano[®] eliminate heavy metals and free radicals? Yes. By definition, free radicals are atoms or molecules that are missing one or more electrons from their structure. Free radicals, therefore, possess an inherent and destructive positive electrical charge like their heavy metal counterparts. With a powerful array of multiple negative charges, ACZ nano-sized zeolite particles capture and bind up the destructive free radicals, heavy metals and numerous other toxins and disposes of them using the natural processes of the body.

How does ACZ nano[®] work? The cleansing mechanism of ACZ nano[®] is simple. With each dose, near countless numbers of sub micron size zeolite crystals enter the body as energized, nutrient filled cages. As these crystal cages travel through the blood stream, nutrients are released as heavy metals and free radicals attach to the zeolite crystal cages in an action similar to a magnet attracting iron filings. This unique exchange mechanism is called the Cation exchange capacity. These toxin filled cages then pass naturally out of the body after only 5 to 7 hours.

Cleansing your brain and body of unwanted toxins is a powerful and rewarding phenomenon. You can easily lift your own toxic burden safely and effectively, feeling a noticeable difference in your health with just a few sprays per day. People who use ACZ nano[®] describe a feeling of euphoria and simply rave how it makes them feel. Experience the cleansing effect of ACZ nano[®] and rave a little yourself!

Studies show ACZ nano[®] has the perfect molecular structure for capturing and removing damaging heavy metals from the body including mercury, arsenic, cadmium, aluminum, lead, tin, excess iron and more.

Go ahead and detox! ACZ nano[®] is safe, effective and affordable.
